

No Shortcuts on Safety

Prove the Quality of Your Wood Pellets with the DINplus Certification

Wood pellets play a key role in reducing CO₂ emissions and are a sustainable alternative to heating oil and natural gas. With our DINplus certification, you can prove your commitment to consistent high quality and gain a competitive edge in the growing market.

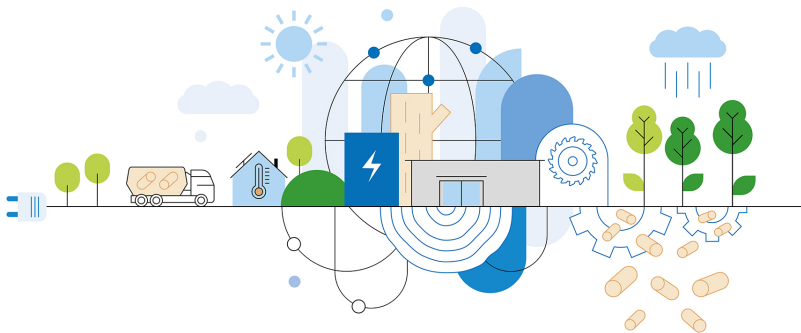

OUR DINPLUS-MARK GUARANTEES:

With compliance to DIN EN ISO 17225-2 (A1) for solid biofuels, our certification guarantees strict quality controls through regular factory inspections and product testing. This results in a reduced ash content, high calorific value, low fine fraction, high bulk density and low chemical contamination.

YOUR BENEFITS AT A GLANCE:

-  **Integrity:** No profit-sharing or license fees per ton of pellets sold
-  **Less Bureaucracy:** A streamlined certification process with minimal hassle
-  **Strong Recognition:** Leverage the global reputation of the DINplus mark
-  **Reliable Quality:** DINplus quality supports longevity of pellet boilers and stoves
-  **Environmental Protection:** Strict contaminant limits for a cleaner future
